

## **Vacuum Cleaner EPA-VAC**

(Part No.: 7350.VAC.EPA)

- Conductive vacuum cleaner for the use in ESD protected areas (EPA)
- Permanent, carbon loaded, conductive, black Polypropylene
- Chassis with five conductive castors
- Two suction levels
- Four times filter system
- One-handed case release
- Marked with ESD symbol

### **Technical data:**

Dimensions (D x H)	360 x 380 mm
Power supply	220 - 240 V
Nominal frequency	50 Hz
Nominal power	900 W
Weight	5.9 kg
Volume of the dustbag	8 Liter
Operating radius	15 m
Power cord	12 m
Suction hose, complete	2.5 m
Noise level	54 dB (Suction level 1), 69 dB (Suction level 2)
Max. vacuum	22.5 kPa
Max. air flow	31 liter/second
Dust emission class	A
Energy efficiency class	A
Protection class	1

## **Technical Information**

### **Electrical properties:**

	Test method	Limits	Typical values
Point-to-point resistance $R_{p-p}$	IEC 61340-2-3	$R_{p-p} < 1 \times 10^4 \Omega$	$10^2 \Omega$
Resistance to groundable point $R_{gp}$ (Conductive castors to metal plate)	IEC 61340-2-3	---	$10^5 \Omega$
<i>Environmental conditions: <math>12 \pm 3 \% RH</math> and <math>23 \pm 2 ^\circ C</math> (conditioning &gt; 48 hours)</i>			

- ▶ 1 year limited warranty.
- ▶ The warranty does not cover the power cord and the suction hose.

### **Included in delivery:**

- 1 Vacuum cleaner
- 1 Power cord
- 1 Suction hose with handle
- 1 Tube 2-part pluggable
- 1 Hard floor nuzzle
- 1 Upholstery nozzle
- 1 Crevice nozzle
- 1 Micro-fleece dust bag (Dust class M)
- 1 HEPA-filter (H13) at the air outlet
- 1 Motor protection filter
- 1 Permanent fine dust filter

### **Spare parts:**

<b>Micro-fleece dust bag (Dust class M)</b> Part-No.: 7350.VAC.EPA.MVB Quantity: 1 unit (5 pcs)	
<b>HEPA-filter (H13) at the air outlet</b> Part-No.: 7350.VAC.EPA.HF Quantity: 1 pc	
<b>Motor protection filter</b> Part-No.: 7350.VAC.EPA.MSF Quantity: 1 pc	
<b>Permanent fine dust filter</b> Part-No.: 7350.VAC.EPA.FSF Quantity: 1 pc
