

Desiccant Bags

(Part No.: 3775.VA.x / 3775.PA.x)

Desiccant bags are filled with high active drying agents; they offer the ideal solution for the protection of moisture-sensitive goods. The desiccant's absorption capacity can be as high as 30% of its weight. It is non-toxic for metal or any other material.

- Desiccant according to DIN 55473, TL 6850-0008 and MIL-D 3464 E
- For moisture damage prevention
- Low-dust tear-proof bags or dust-free paper bags are available
- To use in ESD packaging of moisture sensitive devices according to MIL-B81705 and JEDEC J-STD-033

Part No.	Model
3775.VA.x	non-woven bag Tear-proof, low-dust fleece bag
3775.PA.x	Soda paper bags Dust-free soda paper bags for sensitive products, however less tear-proof than non-woven bags

x	Units	Weight [g]*	Quantity [pcs.]	Quantity per box [pcs.]
017000	1/6	6	150	1350
033000	1/3	12	80	800
050000	1/2	18	60	720
101000	1	35	40	400
102000	2	70	20	240
104000	4	145	15	120

* The bags are filled with desiccant units. The column fill weight informs about the approximately desiccant content.
